WORK EXPERIENCE

Artificial Intelligence Developer Intern

October 2025 – Present

Nile Technologies Pvt. Ltd.

- Built AIOps conversational systems (RAG, GraphRAG, Agentic RAG) using LangChain and CrewAI, reducing manual operational effort by 40% and issue resolution time by 35%.
- Deployed and optimized chatbots on GCP and AWS, cutting inference and infrastructure costs by 25% and reducing average response latency by 30%.

Artificial Intelligence Intern

May 2025 – September 2025

Yantra Pragya

- Developed and fine-tuned a causal language model to analyze pathology reports and accurately answer follow-up medical queries, reducing hallucinations by 30%.
- Integrated the model into a real-time prototype interface using the MERN stack, supporting interactive medical document processing and validation workflows.

PROJECTS

Website Hosting Platform

[Link](#)

MERN, R2, Redis, Git/GitHub

- Built a full-stack platform to host static websites with GitHub integration and R2 object storage, featuring responsive dashboards and real-time feedback.

AI-Powered Music Therapy

[Link](#)

YOLOv8, Fal.ai, VGG16, Flask, MongoDB, React, Node

- Developed a platform integrating emotion detection, context recognition, and real-time dynamic music generation for Music Therapy.

Hackathon Evaluation Automation

[Link](#)

Gemini 2.5 Pro, GPT 4o, LangChain, MERN, Google Forms

- Led a team of seven to build an AI-powered platform automating the hackathon evaluation process, deployed in the Internal Smart India Hackathon (GLAU) to evaluate 90 teams with 6 judges.

EDUCATION

Sept 2022 - May 2026 B.Tech - CSE - AI&ML at **GLA University, Mathura**

(GPA: 8.43/10.0)

ACHIEVEMENTS & CERTIFICATIONS

Certifications

Software Development | Udemy

[Link](#)

Advanced Competitive Programming | W3Grads

[Link](#)

Artificial Intelligence & Machine Learning Specialization | Acmegrade

[Link](#)

Achievements

Coordinator at IBM ICE CodeCrunch, National-level Hackathon

1st Prize in Poetry Competition “LEKHAK”

Certificate of Appreciation for mentoring in Internal Smart India Hackathon 2025 (GLAU)

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, No-SQL, SQL

Technologies: React, Node, Express, MongoDB, Flask, Git/GitHub, Cloudflare, Redis, Postman, AWS, PuTTY, Docker, n8n, VEXT, Kaggle, MATLAB, Linux, CrewAI, LangChain, LangGraph

Concepts: Object Oriented Programming, Data Structures & Algorithms, System Design, Database Management System, Operating System, Computer Networks, Machine Learning, Deep Learning, Large Language Models, Retrieval Augmentation Generation, Neural Networks, Agile Methodology, Debugging, Version Control, Micro Services, Software Development Life Cycle, Model Context Protocol
